Introduction

We have reviewed the accompanying condensed interim statement of financial position of **Johnson & Phillips (Pakistan) Limited** ("the Company") as at December 31, 2021 and the related condensed interim statement of profit or loss and other comprehensive income, condensed interim statement of changes in equity and condensed interim statement of cash flows, and notes to the condensed interim financial statements for the six-month period then ended [here-in-after referred to as the "interim financial statements"]. Management is responsible for the preparation and presentation of this interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these financial statements based on our review. The figures of these condensed interim statement of profit or loss and other comprehensive income for the quarters ended December 31, 2021 have not been reviewed as we are required to review only the cumulative figures for the half year ended December 31, 2021.

Scope of Review

Except as explained in the following paragraph, we conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

- We could not conclude about the existence, obligation and completeness of trade and other payables from counter to the extent of Rs. 19.254 million, out of the total balance amounting to Rs. 62.147 million.
- We could not conclude about the existence, obligation, completeness and classification of short-term borrowing from former directors, long term loans from related parties including current maturities and markup accrued on long term loans amounting to Rs. 8.848 million, Rs. 31.831 million and Rs. 59.737 million, respectively

Qualified Conclusion

Based on our review, except for the possible adjustments to the interim financial information that we might have become aware of, had we been able to conclude about the matters described in the basis for qualified conclusion paragraph, nothing has come to our attention that causes us to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with the international financial reporting standards.

Emphasis of Matter

During the half year ended December 31, 2021, the current liabilities of the Company exceeded its current assets by Rs. 357.768 (June 30, 2021: 396.426) million. Further, the Company has accumulated losses as on the reporting date amounting to Rs. 464.028 (June 30, 2021: 475.072) million.

These factors, together with the other factors as disclosed in note no. 1.3 to the accompanying financial statement indicate the existence of material uncertainty over the Company's ability to continue as a going concern and accordingly, the Company may not be able to realize its assets and settle its liabilities at stated amounts in the normal course of business and also discusses the reasons for these condensed interim financial statements on a going concern basis.

The engagement partner on the review resulting in this independent auditor's report is **Mohammad Iqbal**.
